to
The Seniors
Twin Rivers Community High School

Dear Graduate:

Graduation - the event that you have long looked forward to! Indeed, this is one of the most rewarding and memorable milestones in your young adult life. And well it should be - graduation from high school is one of the first major accomplishments in an individual's life.

In recognition of this important occasion, we have chosen as our gift to you the accompanying publication. The presentation of the volume is our way of saying "Congratulations and best wishes for a successful future."

Realizing that today's youth are tomorrow's leaders, this gift represents a sincere effort to convey to the young people of the community the fact that we have faith and confidence in them. We are certain that it is reassuring to you to know that you live where people in the business community are vitally interested in the youth of the nation.

A whole new world of opportunity now stretches before you. It will be both challenging and rewarding. We have no doubt that you will measure up to the challenge and will become an important asset to your community.

Best wishes for a future of accomplishment.
